In this class, we apply our own body weight to build strength and stability as well as working with different equipment such as resistance bands, weights, medicine balls + more. We work on building flexibility, balance and core strength through pilates techniques, yoga, stretch and myo-fascial release.

Yogalates (Pilates + Yoga)

60 minutes (30 mins Pilates/30 mins Yoga)

If you want a stronger core, this class is for you! 30 minutes mat based Pilates - a focus on activating and developing core/glute strength as well as whole body exercises. 30 minutes Yoga - we mix it up each week from Hatha style yoga (breath and holding poses), chair yoga, some gentle beginner flow (bringing more heat into the body) and Restorative (seated or lying down). Expect to leave your class feeling strong, relaxed and restored.

Yoga Flow

60 minutes

Our Yoga flow class welcomes all levels and is perfect for beginners who have never practiced yoga before. This class incorporates simple flowing sequences to warm up the body, as well as slower paced movements focusing on alignment, strength, balance and flexibility. The class finishes in a deeply restorative pose, inviting stillness and relaxation.

Restorative Yoga

60 minutes

The most relaxing yoga of all is Restorative Yoga. This slow, gentle form of yoga allows your mind and body to quiet down and relax. The supported poses mean little or no muscular effort is required to hold them, allowing you to drop into a healing, soothing state. If you're looking for a yoga class to help you access a meditative state and release stress without breaking a sweat, this is the class for you.
